The **BFF Tutoring** SSAT Strategy Workshop will provide your student practical tools, in a condensed format, necessary to build confidence for SSAT day. We will review and practice test-taking strategies, approaches to each section (verbal, math, writing and reading), and discuss how to best navigate the test. Taking a pre-course mock test is highly recommended (not included). While the program will show them the tricks and traps of the SSAT, students must practice and study after the Strategy Workshop.
